

## Meet the Designers

Koncept was born when Peter Ng and his two sons, Kenneth Ng and Edmund Ng, joined forces in 2002 in order to harness years of manufacturing and industrial design experience.

Since then, the family-operated team continues to employ a multidisciplinary approach to design by embracing modern, minimalist lines while maintaining rich functionalities, thus striking the perfect balance between form and function. Together, they designed one of the first practical LED desk lamps on the market- Koncept's signature Z-Bar light, which was selected into the permanent collection of Die Neue Sammlung, the state museum for design and applied arts in Munich, Germany.

The team at Koncept has designed a range of award-winning products which has significantly influenced by pioneering in the LED task lighting design industry. Their works have been featured in major press such as TIME Magazine, Oprah Magazine, and Interior Design Magazine, etc. To date, their designs have won 37 international design awards including the Red Dot Design Award, "The Best Inventions Of The Year" by Time Magazine, iF Design Award, and the Good Design Award.

Connect the light bars to create a configuration for a lighting system that best fits your space

### Details

Available as 16" or 24" light bars  
16" bar= 400 lumens, 8 W consumption  
24" bar= 600 lumens, 12 W consumption  
50,000 hours lifespan  
3,000 K light color  
CRI: 90  
Compatible with any ELV wall dimmer  
Continuous dimming  
Matte Black, Matte White, Silver

### Environmental Considerations

Water-based paint  
LEDs do not contain mercury  
Low power consumption  
LEED credit eligibility

## A Twist On A Classic

Our Z-Bar desk and floor lamp designs have been reinvented into a unique and customizable pendant fixture that can attach, float, or hang according to your preferences.

## Completely Customizable

The pendant lights are completely modular and can be configured to stack in multiple layers and can be stacked in a way that allows one Z-Bar pendant configuration to shine direct light onto a desk or table, while another suspended above it can cast ambient light onto the ceiling for a soft glow. Both sets of lights hang from the same barely-there support system to eliminate any unnecessary wires.

## Light Where You Need It

The Z-Bar Pendant is available in four standard system shapes: triangle, square, bird, and honeycomb. Each configuration consists of a different number of connecting "light bars" that can independently rotate 360°
