

mr. GO!

LED Lantern

Designers

Kenneth Ng & Edmund Ng

Spark Award 2016 - Bronze

Interior Design's Best of Year Honoree 2016

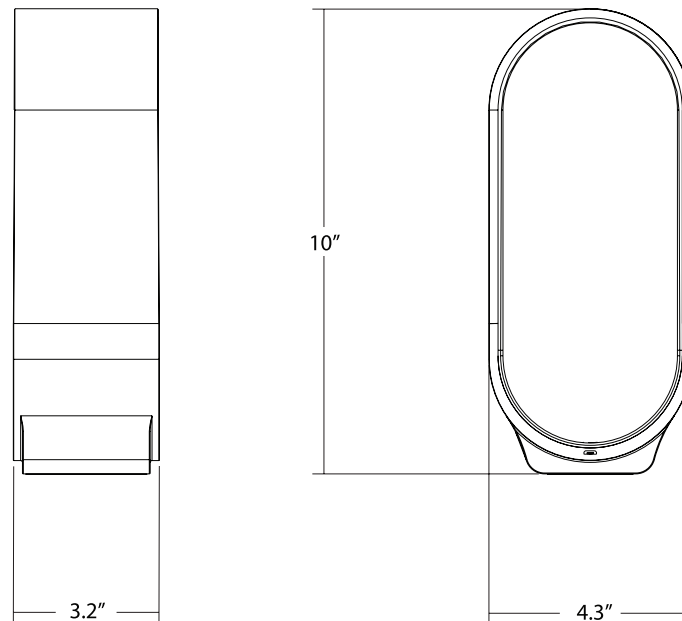

iF Design Award 2017

Mr. GO! is a portable lantern comprised of a unique, curved light panel design that acts as a natural handle. Charge the built-in, powerful batteries using the USB port and enjoy 5-50 hours (depending on the brightness setting) of cordless light. Hang this quirky lamp from an umbrella or tree with the included leather strap. A standard USB output port allows users to charge their compatible devices on the go, making mr. GO! the perfect companion for many occasions.

Lumens: 190
 Energy Consumption: 3.5 W
 LED Rated Lifespan: 50,000 hours
 Color Temperature: 2,700 K
 Color Rendering Index (CRI) : 85
 Standard Finishes: Soft White, Soft Grey, Soft Green, Soft Orange, Soft Blue
 Material: Aluminum, Zinc Alloy, Plastic
 Dimmer & on/off: Tactile button
 Battery Life: 5 hours - brightest setting, 50+ hours - dimmest setting
 Included accessories: Leatherette strap, USB cord
 Built-in USB Port
 C-UL-US Certified

- SWT = Soft White
- SGY = Soft Grey
- SGN = Soft Green
- SOR = Soft Orange
- SBL = Soft Blue

Potential LEED Points

Integrative Process (Possible 2 points)

To support high-performance, cost-effective project outcomes through an early analysis of the interrelationships among systems.

Koncept's LED desktop and task lighting provides finer control over lighting levels in occupied spaces. With personal lighting in place, elimination or downsizing of building lighting systems is possible.

Interior Lighting (Possible 2 points)

To promote occupants' productivity, comfort and well-being by providing high-quality lighting.

All Koncept's task lighting products provide more than three lighting levels that are easily adjustable by occupants to suit their needs. Furthermore, all Koncept's task lighting products use high quality LED light sources with CRI over 80 and L70 rated lifespan over 50,000 hours. Desktop and task personal lighting also provides the opportunity to reduce overhead lighting.
