

KONCEPT

LADY 7

2014 Japan Good Design Award
2014 Gold Spark Award
2014 Interiors & Sources Readers' Choice Award
2015 IF Design Award

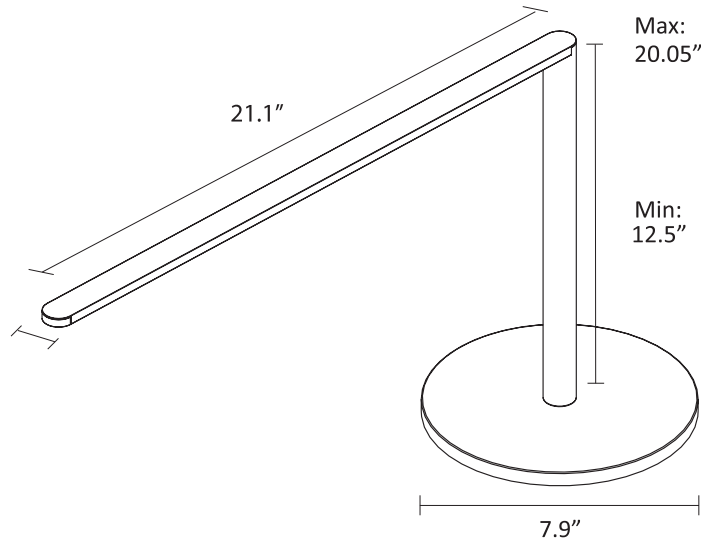

Designer
Kenneth Ng & Edmund Ng

Designed with a wispy-thin silhouette, Lady7 emits a beautifully diffused, linear light. The lamp's body features a telescopic method of adjustability. With her contemporary clean lines and ability to tune the brightness or color temperature, Lady7 is a gorgeous task light for any interior.

Lumens	300
Energy Consumption:	6.5 watts
Number of LEDs:	6 LEDs
LED Rated Lifespan:	50,000 hours
Color Temperature	Variable from 2,700 K to 4,000 K
Color Rendering Index (CRI):	83
Brightness Adjustability:	Continuous dimming
Standard Color Finish:	Metallic Black, Silver, Matte Red, Matte White
Material:	Aluminum/Plastic
Cord:	Braided cord in matching color, 10'
C-UL-US Certified	
Maximum Brightness (15" above desk):	100 fc
Built-in USB port: 5V 1A	
Built-in 5-hour auto-shutoff timer	

L7- -DSK

- MBK = Metallic Black
- SIL = Silver
- MRD = Matte Red
- MWT = Matte White

Potential LEED Points

Integrative Process (Possible 2 points)

To support high-performance, cost-effective project outcomes through an early analysis of the interrelationships among systems.

Koncept's LED desktop and task lighting provides finer control over lighting levels in occupied spaces. With personal lighting in place, elimination or downsizing of building lighting systems is possible.

Interior Lighting (Possible 2 points)

To promote occupants' productivity, comfort and well-being by providing high-quality lighting.

All Koncept's task lighting products provide more than three lighting levels that are easily adjustable by occupants to suit their needs. Furthermore, all Koncept's task lighting products use high quality LED light sources with CRI over 80 and L70 rated lifespan over 50,000 hours. Desktop and task personal lighting also provides the opportunity to reduce overhead lighting.
