

mr. n

Interior Design's Best of Year Honoree 2013 Product
Spark Awards 2013 Bronze Winner
Metropolis Likes Award 2014

Designer
Peter Ng

Meet Mr. n: an arch-shaped, fashion-forward lamp that exudes a soft, omni-directional light. A one-finger tap on a touchstrip at the bottom of the lamp is all that's needed to make Mr. n glow. Hold your finger on the same strip to adjust brightness. Invite Mr. n into your home or workspace for a hint of modern quirkiness.

Lumens:	250
Energy Consumption:	5 W
LED Rated Lifespan:	50,000 hours
Typical Color Temperature – Soft White:	2,700 K
Color Rendering Index (CRI):	85
Dimmer:	Built-in Touch Sensor
Brightness Adjustability:	Continuous Dimming
Standard Color Finish ¹ :	Metallic Black, Silver
Material:	Aluminum/Plastic
Cord:	Silver, 10'
C-UL-US Certified	

NL1-S-===-DSK

— MBK = Metallic Black
— SIL = Silver

Potential LEED Points

Integrative Process (Possible 2 points)

To support high-performance, cost-effective project outcomes through an early analysis of the interrelationships among systems.

Koncept's LED desktop and task lighting provides finer control over lighting levels in occupied spaces. With personal lighting in place, elimination or downsizing of building lighting systems is possible.

Interior Lighting (Possible 2 points)

To promote occupants' productivity, comfort and well-being by providing high-quality lighting.

All Koncept's task lighting products provide more than three lighting levels that are easily adjustable by occupants to suit their needs. Furthermore, all Koncept's task lighting products use high quality LED light sources with CRI over 80 and L70 rated lifespan over 50,000 hours. Desktop and task personal lighting also provides the opportunity to reduce overhead lighting.
