

mr. n *tall*

Designers
Kenneth Ng & Edmund Ng

Mr. n *tall*, inspired by the original Mr. n Desk Lamp, is double the height and double the brightness of its little brother. Sit this lamp on your desk, bookshelf or table to add some character and cast a glow across the room. Plug your phone or any other USB-compatible device into the built-in USB port to re-charge.

Lumens:	600
Energy Consumption:	13.5 W
Rated Lifespan	50,000 hours
Color Temperature:	2,700 K
Color Rendering Index (CRI):	90
Dimmer:	Located at the logo on the bottom
Brightness Adjustability:	Continuous dimming
Standard Finish:	Silver
Material:	Aluminum, plastic
Cord:	Silver, 10'
C-UL-US Certified	

Potential LEED Points

Integrative Process (Possible 2 points)

To support high-performance, cost-effective project outcomes through an early analysis of the interrelationships among systems.

Koncept's LED desktop and task lighting provides finer control over lighting levels in occupied spaces. With personal lighting in place, elimination or downsizing of building lighting systems is possible.

Interior Lighting (Possible 2 points)

To promote occupants' productivity, comfort and well-being by providing high-quality lighting.

All Koncept's task lighting products provide more than three lighting levels that are easily adjustable by occupants to suit their needs. Furthermore, all Koncept's task lighting products use high quality LED light sources with CRI over 80 and L70 rated lifespan over 50,000 hours. Desktop and task personal lighting also provides the opportunity to reduce overhead lighting.
