

KONCEPT

Z-BAR

pendant light

Koncept's award-winning Z-Bar designs have been reinvented into a unique and customizable pendant fixture. The Z-Bar Pendant's "light bars" can connect, float and hang to suit your interior space. Each modular light bar independently rotates, allowing you to shine the light upwards for ambience, or downwards for task lighting. The Z-Bar Pendants are compatible with most dimmers, so controlling the brightness by remote control or switch is simple. Choose from the standard configurations or create your own using the dedicated web app.

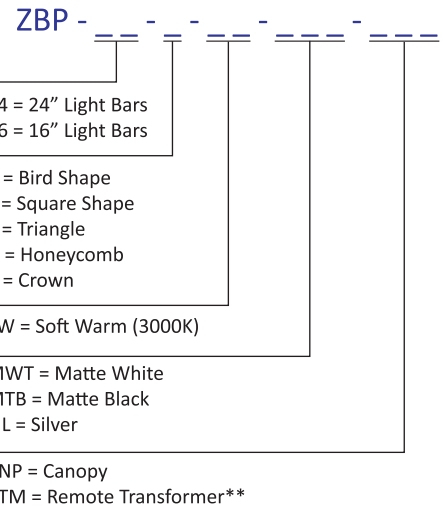

Designers

Kenneth Ng & Edmund Ng

2016 Best of NeoCon GOLD
iF Design Award 2017
Red Dot Design Award 2017

Lumens (per light bar): 600lm for 24" and 400lm for 16"*
 Energy Consumption (per light bar): 10 W for 24" and 7 W for 16"
 Rated Lifespan: 50,000 hours
 Color Temperature: 3,000 K
 Color Rendering Index (CRI): 90
 Wall Switch: Compatible with any ELV wall dimmer**
 Standard Finishes: Matte Black, Silver, Matte White
 Material: Aluminum, Zinc alloy, plastic
 C-UL-US Certified

*3000lm for Single Honeycomb (24") with ceiling mount canopy
 **Remote transformers are only compatible with 0-10V dimmers
 48" Light Bars available for custom orders

Potential LEED Points

Integrative Process (Possible 2 points)

To support high-performance, cost-effective project outcomes through an early analysis of the interrelationships among systems.

Koncept's LED desktop and task lighting provides finer control over lighting levels in occupied spaces. With personal lighting in place, elimination or downsizing of building lighting systems is possible.

Interior Lighting (Possible 2 points)

To promote occupants' productivity, comfort and well-being by providing high-quality lighting.

All Koncept's task lighting products provide more than three lighting levels that are easily adjustable by occupants to suit their needs. Furthermore, all Koncept's task lighting products use high quality LED light sources with CRI over 80 and L70 rated lifespan over 50,000 hours. Desktop and task personal lighting also provides the opportunity to reduce overhead lighting.
