Royyo adds an elegant flair to any space with its minimal wiring and pleasing circular design. Its unique silhouette houses complex inner technology for a marriage of form and functionality. Interchangeable base plate options allow users to customize Royyo Desk and Floor lamps at ease. Royyo Desk Lamp's embedded USB port allows users to charge any USB-compatible device. Combine multiple Royyo Pendants together to make a stunning focal point, or hang just one for a minimalist statement. Feature all three Royyo products in your home for unity in design.

**Potential LEED Points**

**Integrative Process (Possible 2 points)**  
 To support high-performance, cost-effective project outcomes through an early analysis of the interrelationships among systems.  
 Konzept's LED desktop and task lighting provides finer control over lighting levels in occupied spaces. With personal lighting in place, elimination or downsizing of building lighting systems is possible.

**Interior Lighting (Possible 2 points)**  
 To promote occupants' productivity, comfort and well-being by providing high-quality lighting.  
 Konzept's portable task lighting products provide more than three lighting levels that occupants can easily adjust to suit their needs. Users can achieve dimming control for most hardwire lighting products by implementing standard ELV dimmers. Furthermore, all Konzept lighting products use high quality LED light sources with CRI over 80 (over 90 for hardwire products) and L70-rated lifespan over 50,000 hours. Desktop and task personal lighting also provide the opportunity to reduce overhead lighting.

Photometrics for desk/floor lamps: Light source placed 15" away from work surface
