Red Dot Design Award 2021
iF Design Award 2021
Best of NeoCon SILVER 2021
Interior Design Magazine's Best of Category 2006*
Permanent display at Die Neue Sammlung, Munich*
TIME Magazine's Best Inventions of the Year 2007*

*Awards won with previous Z-bar generations

The original Z-Bar design was Koncept's flagship product in 2004, and has enjoyed tremendous global success. "Generation 4" is the fourth revamp of the original Z-Bar line of task lights. It consists of the Z-Bar Desk Lamp, Z-Bar Solo Desk Lamp, Z-Bar Mini Desk Lamp and Z-Bar Floor Lamp. This award-winning line features improved optics and joint design. Gen 4 maintains some beloved characteristics such as a minimalist profile, high flexibility and compatibility with various desk and wall mounts. The "Pro" version of each desk lamp comes with added functionality such as motion detection and light temperature tunability.

The Z-Bar collection broke the mold for desk and floor lamp design and introduced the world to Koncept's contemporary designs. The traditional bulb-and-shade lamp format was abandoned and the result was a flexible, streamlined design. The three-bar silhouette has become iconic in the LED lighting design industry. With several sizes to choose from, there's a Z-Bar for every need.
The "Pro" version comes with an occupancy sensor and USB port for charging compatible devices. It also allows users to choose and adjust their color temperatures (from 2,700-5,000 K) to coincide with their circadian rhythms.

Mounting Options

The Z-Bar Desk Lamp was designed to encompass a minimal footprint. Koncept designers amplified this idea by ensuring that the lamp is compatible with a variety of Koncept's mounting options. When users incorporate desk clamps, grommet mounts and hardwire wall mounts, they automatically create more desk space. The lamp's power cord is barely visible with these mounts. The Qi base provides quick and easy charging for compatible phones. Users can simply place their phone on the base, and the device will automatically begin charging.

Hardwire Wall Mount

Desk Base (standard)

Wireless Charging Qi Base

Two-piece Clamp

Grommet Mount

Wall Mount

Slatwall Mount

Through-table Mount

The "Pro" version of each desk lamp model comes with an occupancy sensor and USB-C port for charging compatible devices. It also allows users to choose and adjust their color temperatures (from 2,700-5,000 K) to coincide with their circadian rhythms.

The optional wireless charging base is powered by the USB-C port on the Pro version Z-Bar lamp. Wireless charging bases are compatible with Pro version Z-bar only.

Technical Information

	Z-Bar	Z-Bar Pro
Occupancy Sensor:	N/A	Built-in
USB-C port:	N/A	Built-in
Color Temperature:	3,500K (W) or 5,000K (D)	2,700K (S) - 5000K (D)
Lumens:	888	816 (S) / 971 (D)
Footcandles @ 15”:	169 (W) / 189 (D)	206
Energy Consumption:	8.8 W	10.1 W
Standard Finishes:	Matte Black, Silver, Matte White	Matte Black, Silver Brushed Aluminum (limited edition)

L-90 Rated Lifespan:	60,000 hours
Color Rendering Index:	90+
Brightness Adjustability:	Continuous dimming (touchstrip)
Material:	Aluminum, plastic
Safety Rating:	C-UL-US Certified
Warranty:	5 years
Voltage:	100-240V

** Not available for standard model
*** Not available for Pro model

LEED Information

Integrative Process
To support high-performance, cost-effective project outcomes through an early analysis of the interrelationships among systems.
Koncept’s LED desktop and task lighting provides finer control over lighting levels in occupied spaces. With personal lighting in place, elimination or downsizing of building lighting systems is possible.

Interior Lighting
To promote occupants’ productivity, comfort and well-being by providing high-quality lighting.
Koncept’s portable task lighting products provide more than three lighting levels that occupants can easily adjust to suit their needs. Furthermore, all Koncept lighting products use high quality LED light sources with CRI over 90 and L90 rated lifespan over 60,000 hours. Desktop and task personal lighting also provide the opportunity to reduce overhead lighting.
