Guy lantern

The Guy lantern serves as a versatile and convenient lighting source suitable for both indoor and outdoor settings. It goes beyond mere illumination, offering warm light with adjustable dimming options, enhancing user experiences. With a minimum 10-hour (& 80+ hours at dimmest setting) usage time at full charge, it addresses the need for portable, long-lasting lighting, further extended by its adaptability as it transforms into a table lamp when used with a charging base. Its uniqueness lies in its design concept, mimicking a person with interchangeable "clothing" accessories, setting it apart from typical lanterns, including a "cape" – a curved hot pressed felt, "collar glass" – a glass disk, "collar bowl" – a glass bowl, and a rotatable trapezoid-shaped lamp shade. Its soft glow, and durable features make it distinct and appealing. The primary goal was to craft a stylish, versatile, and enduring lighting solution that caters to diverse settings. This objective was successfully achieved by focusing on user needs, such as extended battery life, adaptability, and the opportunity for personalization.

GUY
 Lumens: 190
 Battery Life : 10 hours at max brightness / 80+ hours at lowest setting (at full charge)
 Rated LED Lifespan: 60,000+ hours
 Color Temperature: 2,700 K
 Color Rendering Index (Ra) : 90+
 Color Rendering Index (R9) : 50+
 Material: Aluminum, Plexiglass
 Warranty: 5 years
 Voltage: 5V
 Standard Finish (luminare): Matte White, Matte Black, Brass
 Shade Finishes: Matte White (Metal)
 Matte Black / Brass (Metal)
 Dark Grey (Disk Collar, Bowl Collar)
 Light Marble (Cape)

*USB-C Charger not included.

Guy Standard package with shade

Guy with optional clothing item

Optional clothing item

- Guy Disk Collar (Glass)
P4 - GUY - DDGY
- Guy Cape (Felt)
P4 - GUY - CLTM
- Guy Bowl Collar (Glass)
P4 - GUY - BDGY - 5

Optional clothing items for Guy

Simply unscrew the head off the body, place the optional clothing in between and screw together the head and body.

LEED Information

Integrative Process

To support high-performance, cost-effective project outcomes through an early analysis of the interrelationships among systems. Konzept's LED desktop and task lighting provides finer control over lighting levels in occupied spaces. With personal lighting in place, elimination or downsizing of building lighting systems is possible.

Interior Lighting

To promote occupants' productivity, comfort and well-being by providing high-quality lighting. Konzept's portable task lighting products provide more than three lighting levels that occupants can easily adjust to suit their needs. Furthermore, all Konzept lighting products use high quality LED light sources with CRI over 90 and L70 rated lifespan over 60,000 hours. Desktop and task personal lighting also provide the opportunity to reduce overhead lighting.
