

1

Open up the lamp and remove the back face plate

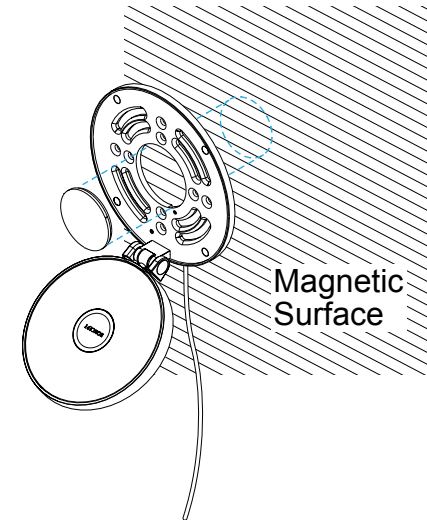

3

Re-attach the back face plate.

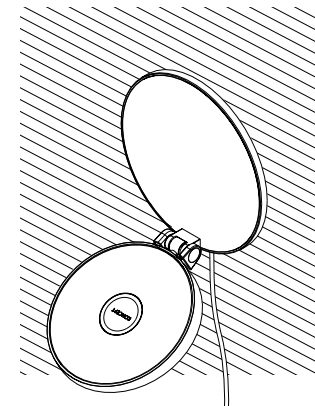

2

Insert magnetic mount into the center opening of the back plate, and attach the whole assembly to a magnetic surface

4

Installation complete.

The Magnetic Mount allows the Gravy Wall Sconce to be installed on magnetic surfaces without permanent mounting hardware.

Simply install the magnetic mount inside the sconce and attach it to any suitable magnetic surface. Ideal applications include metal backsplashes, the underside of metal cabinets, and other ferromagnetic surfaces.
