

equo

Equo is a willowy sculpture functioning as an LED Desk Lamp. The lamp has a streamlined counterweight design for feather-light adjustability. One finger is all you need to adjust the floating arm's position, and the tilting head stays at the angle you set. When the best in design meets clever engineering, the result is Equo, in all its elegance.

WD = Warm White Light

CRM = Chrome*
BLK = Black
SIL = Silver
ORG = Orange

DSK = Desk Base

Occupancy sensor*
(P7-02-OCC01A)

*Sold separately

Potential LEED Points

Integrative Process (Possible 2 points)

To support high-performance, cost-effective project outcomes through an early analysis of the interrelationships among systems.

Koncept's LED desktop and task lighting provides finer control over lighting levels in occupied spaces. With personal lighting in place, elimination or downsizing of building lighting systems is possible.

Interior Lighting (Possible 2 points)

To promote occupants' productivity, comfort and well-being by providing high-quality lighting.

All Koncept's task lighting products provide more than three lighting levels that are easily adjustable by occupants to suit their needs. Furthermore, all Koncept's task lighting products use high quality LED light sources with CRI over 80 and L70 rated lifespan over 50,000 hours. Desktop and task personal lighting also provides the opportunity to reduce overhead lighting.

Light source placed at 15" away from worksurface
