Splitty Reach

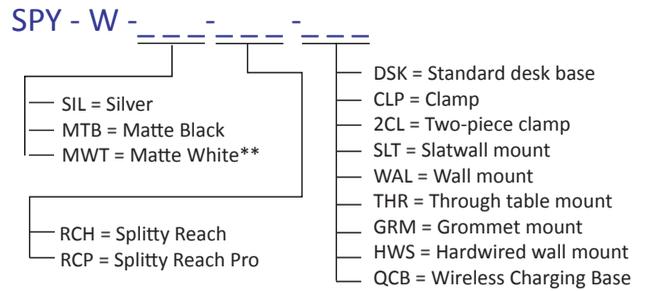

Designers
Kenneth Ng, Edmund Ng

Red Dot Design Award 2018
iF Design Award 2018
Best of NeoCon GOLD 2017
Interior Design Best of Year Honoree 2017

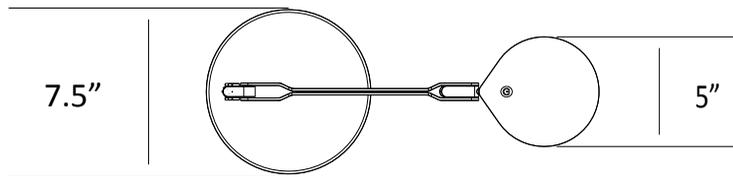

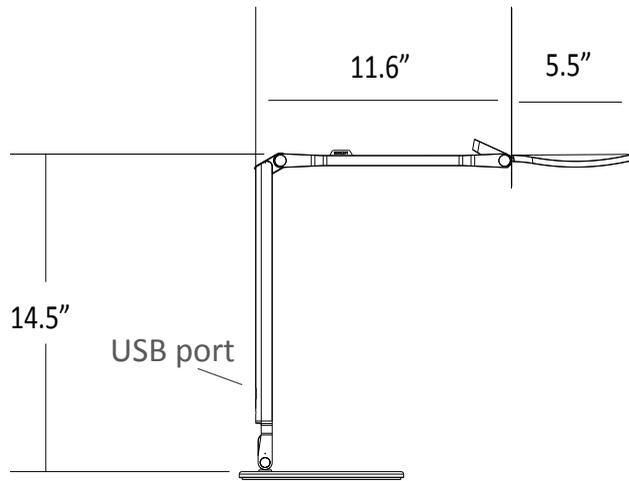

Available in three finishes, Splitty Reach offers even more flexibility and reach than the original Splitty desk lamp, due to the double arm and special joint mechanism. A USB port is located in the lower body for convenient charging options. The lamp's diffused LED light source allows it to perform as both a radiant ambient light and functional task light. Desk mounting, wall mounting and alternative bases available.

Lumens: 500
 Footcandles: 117
 Lux: 1259
 Energy Consumption: 7 W
 Rated Lifespan: 50,000 hours
 Color Temperature: Warm (3,500 K)
 Color Rendering Index (CRI) : 90
 Brightness Adjustability: Continuous dimming
 Material: Aluminum, plastic
 USB port: Built-in; 1A (Splitty Reach) / 2A (Splitty Reach Pro)
 Occupancy Sensor: Built-in (Splitty Reach Pro)
 Safety Rating: C-UL-US Certified
 Voltage: 120V
 Standard Finishes: Silver, Matte Black, Matte White**

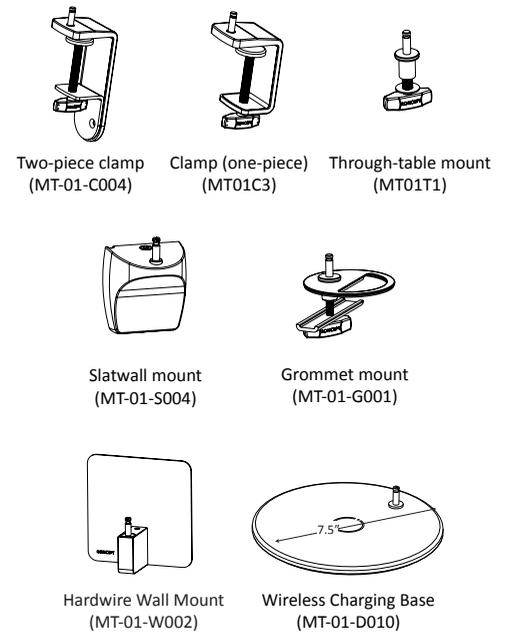

**Finish not available for Splitty Reach Pro

Splitty Reach/Splitty Reach Pro Desk Lamps

Mounting Options for all Splitty series desk lamps***

***Limited finishes available on mounting options. Visit koncept.com/splitty for more information.

LEED Information

Integrative Process

To support high-performance, cost-effective project outcomes through an early analysis of the interrelationships among systems.

Koncept's LED desktop and task lighting provides finer control over lighting levels in occupied spaces. With personal lighting in place, elimination or downsizing of building lighting systems is possible.

Interior Lighting

To promote occupants' productivity, comfort and well-being by providing high-quality lighting.

Koncept's portable task lighting products provide more than three lighting levels that occupants can easily adjust to suit their needs. Furthermore, all Koncept lighting products use high quality LED light sources with CRI over 80 and L70 rated lifespan over 50,000 hours. Desktop and task personal lighting also provide the opportunity to reduce overhead lighting.

Photometrics: Light source placed 15" away from work surface
